DETAILED ACTION

Election/Restrictions

Applicant's election of Group I (claims 1-39) in the reply filed on July 23, 2009 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

The references cited within the I.D.S. documents submitted on May 8, 2006 (paper no. 20060508) and April 7, 2006 (paper no. 20060407) have been considered.

This application is in condition for allowance except for the following formal matters:

Drawings

The drawings are objected to because of informalities as follows:

The following figures are informal in nature as they seem to be reproduced black-and-white photographs: Figures 3, 4A-C, 5, 6A-E, 7A-D, 8A-B, 9A-C, 10, 11, 12, 13, 14, 15, 16, 17A-B

The image quality of these drawings is poor.

From 37 CFR 1.84(b)(1): "The photographs must be of sufficient quality so that all details in the photographs are reproducible in the printed patent."

From 37 CFR 1.84(l): "All drawings must be made by a process which will give them satisfactory reproduction characteristics. Every line, number, and letter must be durable, clean, black (except for color drawings), sufficiently dense and dark, and uniformly thick and well-defined. The weight of all lines and letters must be heavy enough to permit adequate reproduction."

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New

Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Allowable Subject Matter

Claims 1-39 are allowed.

The following is an examiner's statement of reasons for allowance.

The prior art of record and to the examiner's knowledge does not teach or render obvious, at least to the skilled artisan, the instant invention regarding a method of fabricating a metamaterial, characterized by steps of providing a microstructured material having one or more elongate voids, providing a high pressure fluid comprising at least one semiconductor, passing the fluid through the void(s) and causing the semiconductor to deposit onto a surface of the void(s), as described in independent claim 1. Claims 2-39 depend upon claim 1. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
